product

Science, technology, care.

 **Huwell**
chemicals

Catalogue 2024-2025

Founded in 1960, [Huwell Chemicals](#) has unrivalled experience in the cosmetics industry and an extensive network of contacts, built up through its extensive know-how, the high quality of its products and services, and its many international partners.

Ethics and sustainability are not abstract concepts, but a virtuous path that Huwell Chemicals undertook many years ago, installing state-of-the-art safety systems to protect the health of its workers, and investing in solar panels to guarantee maximum autonomy for the facility.

[Huwell Chemicals](#) is a leading distributor of raw materials for the cosmetics and pharmaceutical industries, and in the production of hair bleaching powders and trichological dyes.

Thanks to its constant commitment to research and new technologies, [Huwell Chemicals](#) guarantees innovative products designed to the specific needs of its customers.

Talking about raw materials, we represent companies that for years have made eco-sustainability a primary and fundamental commitment both in terms of reducing environmental impact and supporting humanitarian projects.

Since then, our commitment to the happiness and satisfaction of our stakeholders has grown and is shaping [Huwell Chemicals'](#) mindset towards our entire business and day by day our products are becoming more sustainable.

[Huwell Chemicals'](#) new formulations have a smaller impact on the environment, all our boxes are FSC certified and our flexible packaging options have a smaller footprint than rigid ones.

We work with renewable energy, to offset our emissions we are helping reforestation projects in Kenya, Bolivia and Nepal.

For all our efforts, the Ecovadis platform awarded us the silver medal for sustainability and we couldn't be prouder!

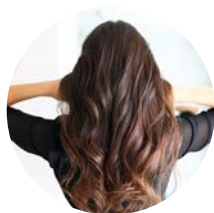

Ingredients for every exigency, counselling for all formulations

Skin care

The beauty and well-being of each of us passes through skin care for the face and body. Choosing the right raw materials enables the formulation of functional and pleasant products. **Huwell Chemicals** provides functional active ingredients, vegetable oils and butters, emulsifiers of natural origin and effective and safe preservative systems.

Hair care

Huwell Chemicals has always been the benchmark for those who formulate hair care and beauty products. We offer a wide range of cationic quaternary derivatives and polyquaternium derivatives with conditioning and detangling functions. There is a wide range of protein derivatives and functional pseudoproteins, oxidation and direct colouring dyes are available in our price list.

Make-up

Decorative cosmetics are an all-Italian pride, **Huwell Chemicals** supports the creativity of make-up companies by providing specific esters for pigment dispersion, emollients of natural origin and innovative active ingredients.

Sun care

It is no longer enough for the consumer that the sun cream is functional, it must have a pleasant texture and be easy to apply. We provide the formulator with easily dispersible and easy-to-use inorganic sun filter dispersions to be used together with our light and compatible esters. We also offer a wide range of extracts and butters with soothing and repairing actions.

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
SURFACTANTS								
Alchilamido Betaina 30	Cocamidopropyl Betaine, Aqua	Liquid, 30%	Mild amphoteric surfactant generally used in combination with anionic surfactants whose aggressiveness can be reduced. Used in shampoos, bubble baths, intimate cleansers, liquid soaps. Suitable in products specifically for delicate skin.		★			★
Alchilamido Betaina PV	Cocamidopropyl Betaine	Powder	Mild amphoteric surfactant generally used in combination with anionic surfactants whose aggressiveness can be reduced. Used in shampoos, bubble baths, intimate cleansers, liquid soaps. Suitable in products specifically for delicate skin.		★			★
Dietanolamide di Cocco	Cocamide DEA	Viscous liquid	Nonionic surfactant. Foaming agent and consistency factor in detergent products.		★			★
TensioGreen PCG 30	Potassium Cocoyl Glycinate, Aqua	Liquid, 30%	Emulsifier, wetting agent, dispersant and foam stabilizer. Use levels ranges from 2 to 30 percent depending on formulation requirements and the combination with other surfactants. Naturally produces a creamy foam. Non-irritant. Suitable for formulating waterless products.		★			★
TensioGreen PCG PV	Potassium Cocoyl Glycinate	Powder	Emulsifier, wetting agent, dispersant and foam stabilizer. Use levels ranges from 2 to 30 percent depending on formulation requirements and the combination with other surfactants. Naturally produces a creamy foam. Non-irritant. Suitable for formulating waterless products.		★			★
TensioGreen SCA 30	Sodium Cocoyl Alanilate, Aqua	Liquid, 30%	Mild surfactant capable of generating excellent foam over a wide pH range. In combination with other surfactants, it acts synergistically by reducing irritation. Used in facial cleansers and other personal care products.		★			★
TensioGreen SLI PV	Sodium Lauroyl Isothionate	Powder	Mild anionic surfactant, derived from coconut. Mild cleanser in hair and skin care products. Highly foaming product capable of providing thick, creamy foam to formulations. Suitable for formulating waterless products.		★			★

READY-TO-USE EMULSIFIER BASES								
Emulsol AE-3	Cetearyl Alcohol, Ceteareth-25, Ceteareth-3	Flakes	Self-emulsifying base for cream hair dye.		★			
Emulsol C	PEG-2 Oleamine, Cocamide DEA, Oleic Acid, Propylene Glycol	Thick liquid	Base for gel hair dye.		★			
EMULSIFIERS								
Emulsol HT-25 RSPO	Ceteareth-25	Flakes	O/W emulsifier for all types of emulsion. Stable in alkaline and acidic conditions. HLB: 16.5.	★	★	★	★	
Emulsol 3	Ceteareth-3	Solid	O/W emulsifier for all types of emulsion. Stable in alkaline and acidic conditions. HLB: 5.3	★	★	★	★	
Emulsol L23	Laureth-23	Solid	O/W emulsifier for all types of emulsion. Stable in alkaline and acidic conditions. HLB: 16.9.	★	★	★	★	
Emulsol C12-C14	Lauryl Myristyl Alcohol	Liquid	A liquid O/A emulsifier of vegetable origin that makes possible to obtain emulsions with a pleasant texture. Stable over time and under all pH conditions. Suitable for the formulation of products containing hydrogen peroxide such as hair dyes.	★	★	★	★	
Emulsol GMS RSPO	Glyceryl Stearate	From powder to flakes	Nonionic emulsifier. Stabilizer and consistency factor in O/W emulsions. Several grades available. COSMOS.	★	★	★	★	
Emulsol GMS SE RSPO	Glyceryl Stearate SE	Solid	Self-emulsifying anionic base for the preparation of O/W emulsions for skin and hair care. COSMOS.	★	★	★	★	

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
POLYGLYCEROL ESTERS								
Emulsol PG6KA	Shea Butter Polyglyceryl-6 Esters	Paste	Emulsifier and biodegradable consistency agent with high dermocompatibility. It forms emulsions with high stability and has soothing, moisturizing and elasticizing properties for the skin. It is nourishing for the hair.	★	★	★	★	
Emulsol PG4CC	Polyglyceryl-4 Caprylate/Caprate	Liquid	Biocompatible surfactant which is particularly suitable for the formulation of face and body emulsions. It can also be used as a solubilizer in perfumes.	★	★	★		
Emulsol PG4I MB	Polyglyceryl-4 Isostearate	Liquid	Green PEG free W/O emulsifier, suitable for both cold and hot production processes. It can be used at relatively low levels (2.5-6%) at alone in A/O emulsions and as a coemulsifier (1-2%) in O/W emulsions (HLB: 8.6). COSMOS.	★	★	★	★	
Emulsol PG3DI MB	Polyglyceryl-3 Diisostearate	Liquid	PEG free W/O emulsifier, suitable for cold production processes. It can be used as a co-emulsifier (1 - 2%) in O/W emulsions (HLB: 5). It is suitable in face and body creams, serums and butters, color cosmetics, mild detergents and baby care products. COSMOS.	★		★	★	
Emulsol PG-10L	Polyglyceryl-10 Laurate	Paste	Secondary nonionic surfactant, PEG-free, gentle on skin and with good sensory properties. Suitable as a natural solubilizer for flavors, essential oils and fragrances at a ratio of 1:10 or 1:20. Effective as a mild cleanser in facial or baby care products. Suggested doses: 1-5%.	★		★		
CONSISTENCY FACTORS								
Vegetable Stearin	Stearic Acid	Solid, flakes	Texturing agent with nourishing, emollient and protective properties. It is used in the formulation of creams, sticks, shaving products and candles.	★		★	★	
Cetyl Alcohol	Cetyl Alcohol	Solid, flakes	Texturing agent with conditioning and emollient properties. It has emulsifying properties in O/W systems. Thickener.	★	★	★	★	
Cetearyl Alcohol	Cetearyl Alcohol	Solid, flakes	30:70 or 50:50 mixture of cetyl alcohol and stearyl alcohol. Thickener in cosmetic products in which it improves smoothness and spreadability on the skin. Emollient, stabilizer and viscosity adjuster in O/W emulsions.	★	★	★	★	
Myristyl Alcohol	Myristyl Alcohol	Solid, flakes	Emulsifier, stabilizer of emulsions. Improves the texture of the product.	★	★	★	★	
Stearyl Alcohol	Stearyl Alcohol	Solid, flakes	It imparts viscosity to the product without weighing it down and improves its smoothness and spreadability on the skin. Stabilizer and viscosity regulator in O/W emulsions.	★	★	★	★

ESTERS								
Eudermoil 12-15	C12-15 Alkyl Benzoate	Liquid	Antimicrobial, emollient, skin conditioner	★		★	★	
Eudermoil AL	C12-15 Alkyl Lactate	Liquid	Promotes the dispersion of pigments. Added in small amounts to detergents, it acts as a viscosiser.	★	★	★		★
Eudermoil CC	Coco-caprylate/ Caprate	Liquid	Excellent ability to disperse filters and pigments in anhydrous and emulsion products. ECOCERT.			★	★	
Eudermoil CO	Cetearyl Ethylhexanoate	Liquid	Emollient for skin and hair	★	★	★		
Eudermoil DAZ	Diethylhexyl Azelate	Liquid	In sunscreen products, it enhances the dispersion of physical filters.	★		★		
Eudermoil DES	Diethylhexyl Sebacate	Liquid	In sunscreen products, it enhances the dispersion of chemical filters.	★		★	★	
Eudermoil DISM	Diisostearyl Malate	Liquid	Emollient, skin conditioner, surfactant	★		★	★	
Eudermoil DO	Decyl Oleate	Liquid	Emollient, hair conditioner	★	★	★	★	
Eudermoil IO	Isodecyl Oleate	Liquid	Emollient, skin conditioner	★		★		
Eudermoil EC	Ethylhexyl Cocoate	Liquid	Emollient, skin conditioner	★		★		
Eudermoil ININ	Isononil Isononanoate	Liquid	Antistatic, emollient, skin conditioner	★		★		
Eudermoil IPP	Isopropyl Palmitate	Liquid	Emollient	★		★		
Eudermoil IPM (60:40)	Isopropyl Myristate Isopropyl Palmitate	Liquid	Emollient	★		★		
Eudermoil MCT	Caprylic/Capric Triglyceride	Liquid	Skin conditioning	★		★		
Eudermoil MCT MB RSPO	Caprylic/Capric Triglyceride	Liquid	Skin conditioning	★		★		
Eudermoil OP	Ethylhexyl Palmitate	Liquid	Emollient	★		★		
Eudermoil OP MB RSPO	Ethylhexyl Palmitate	Liquid	Emollient	★		★		
Eudermoil OS	Ethylhexyl Stearate	Liquid	Emollient	★		★		
Eudermoil OS MB RSPO	Ethylhexyl Stearate	Liquid	Emollient	★		★		
Eudermoil PTIS	Pentaerythrityl tetraisostearate	Liquid	Emollient, emulsifier, surfactant	★		★		
Eudermoil EL	Ethylhexyl Laurate	Liquid	Emollient, skin conditioner	★		★

VEGETABLE OILS								
Refined Apricot Oil	Prunus Armeniaca Kernel Oil	Liquid	Skin conditioning	★	★	★	★	
Refined Winterized Orange Oil	Citrus Aurantium Dulcis Seed Oil	Liquid	Masking agent, skin conditioner	★	★	★	★	
Refined Argan Oil	Argania Spinosa Kernel Oil	Liquid	Emollient, skin conditioning	★	★	★	★	
Refined Avocado Oil	Persea Gratissima Oil	Liquid	Skin conditioning	★	★	★	★	
Refined Babassu Oil	Orbignya Oleifera Seed Oil	Liquid	Emollient	★	★	★	★	
Refined Borage Oil	Borago Officinalis Seed Oil	Liquid	Emollient, skin conditioning	★	★	★	★	
Refined Camellia Oil	Camellia Oleifera Seed Oil	Liquid	Emollient, skin conditioner, solvent	★	★	★	★	
Refined Hemp Oil	Cannabis Sativa Seed Oil	Liquid	Emollient, skin conditioning	★	★	★	★	
Refined Cherry Oil	Prunus Avium Seed Oil	Liquid	Emollient, emulsion stabiliser, skin conditioner	★	★	★	★	
Refined Coconut Oil	Cocos Nucifera Oil	Liquid	Emollient, hair and skin conditioner, masking agent, solvent	★	★	★	★	
Refined Cotton Oil	Gossypium Herbaceum Seed Oil	Liquid	Skin conditioning	★	★	★	★	
Refined Wheat Germ Oil	Triticum Vulgare Germ Oil	Liquid	Emollient, skin conditioning	★	★	★	★	
Golden Jojoba Oil	Simmondsia Chinensis Seed Oil	Liquid	Emollient, skin and hair conditioning	★	★	★	★	
Refined Jojoba Oil	Simmondsia Chinensis Seed Oil	Liquid	Emollient, skin and hair conditioning	★	★	★	★	
Refined Linseed Oil	Linum Usitatissimum Seed Oil	Liquid	Skin conditioning	★	★	★	★	
Refined Macadamia Oil	Macadamia Integrifolia Seed Oil	Liquid	Emollient	★	★	★	★	

Refined Corn Oil	Zea Mays Oil	Liquid	Emollient, emulsifier, skin and hair conditioner, solvent	★	★	★	★
Refined Sweet Almond Oil	Prunus amygdalus dulcis oil	Liquid	Skin conditioning	★	★	★	★
Refined Sweet almond Oil Ph. Eur.	Prunus amygdalus dulcis oil	Liquid	Skin conditioning	★	★	★	★
Fractionated Mango Oil Refined	Mangifera Indica Seed Oil	Liquid	Emollient, skin conditioning	★	★	★	★
Refined Hazelnut Oil	Corylus Avellana Seed Oil	Liquid	Emollient	★	★	★	★
Refined Walnut Oil	Juglans Regia Seed Oil	Liquid	Skin conditioning	★	★	★	★
Refined Olive Oil	Olea Europaea Fruit Oil	Liquid	Emollient, solvent	★	★	★	★
Refined Poppy Oil	Papaver Orientale Seed Oil	Liquid	Emollient, solvent	★	★	★	★
Refined Passionflower Oil	Passiflora Edulis Seed Oil	Liquid	Emollient	★	★	★	★
Refined Peach Oil	Prunus Persica Kernel Oil	Liquid	Emollient, skin conditioning	★	★	★	★
Refined Currant Oil	Ribes Nigrum Seed Oil	Liquid	Emollient	★	★	★	★
Refined Rice Oil	Oryza Sativa Bran oil	Liquid	Emollient	★	★	★	★
Refined Sesame Oil	Sesamum Indicum Seed Oil	Liquid	Emollient, skin and hair conditioning	★	★	★	★
Refined Soy Oil	Glycine Soja Oil	Liquid	Emollient, skin conditioning	★	★	★	★
Refined Grapeseed Oil	Vitis Vinifera Seed Oil	Liquid	Emollient, skin conditioning	★	★	★	★
Refined Pumpkin Oil	Cucurbita Pepo Seed Oil	Liquido	Emollient, skin conditioning	★	★	★	★

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
HUMECTANTS, MOISTURIZERS								
Vegetable Glycerin USP	Glycerin	Thick liquid	In skin products as a moisturizer, emollient, refreshing and decongestant. In hair products it imparts elasticity and softness.	★	★	★	★	★
Gliceryn Ph. Eur. Palm Free	Glycerin	Limpid liquid	In skin products as a moisturizer, emollient, refreshing and decongestant. In hair products it imparts elasticity and softness.	★	★	★	★	★
Propylene Glycol USP	Propylene Glycol	Liquid	Mainly used in cosmetic products as a solvent and humectant, as it prevents excessive evaporation of water from products. It also has mild bacteriostatic activity.	★	★	★	★	
Sorbitol	Sorbitol	Thick liquid	Wetting, protective and moisturizing agent. It finds its main application in toothpastes.	★	★			★
KERATOPLASTICS AND KERATOLYTICS								
Thioglycolic Acid	Thioglycolic Acid	Liquid, 80%	A reducing molecule used in perm products that acts on the distribution of disulfide bonds along keratin chains. Also used in depilatory products	★	★			
Ammonium Thioglycolate	Ammonium Thioglycolate	Liquid, 59%	Its reducing action against cystine sulfide bonds makes it suitable in perms and hair straightening products. Also used in depilatory products	★	★			
Calcium Thioglycolate	Calcium Thioglycolate	Powder	Keratolytic, helps to remove dead cells from the epidermis. It is used in creams and depilatory products.	★				
Cysteamine HCl	Cysteamine HCl	Cristals	Mild reducing agent, especially affinity to the hair fiber. For delicate perms.		★			

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
CONDITIONERS								
Polyquat 6	Polyquaternium-6	Liquid	Cationic polymer. Conditioner and antistatic in lotions, conditioners, perms and hair dyes. (Percent active: 40%)		★			
Polyquat 7	Polyquaternium-7	Liquid	Cationic polymer compatible with anionic, cationic, amphoteric and nonionic surfactants. In shampoos and bubble baths, it provides consistency and stability to foaming products. It has excellent lubricating properties. (Percentage of active ingredient: 8-9%)		★			★
Polyquat 11	Polyquaternium-11	Liquid	Cationic polymer. Hair styling resin in mousse, aerosol, spray, gel and lotion form. Conditioner and antistatic in shampoos and rinse-off products. (Percent active: 20%)		★			★
Polyquat 22	Polyquaternium-22	Liquid	Feeling of soft and silky skin and hair. Allows formulation of 2-in-1 shampoo with rich, creamy foam. Provides excellent lubricating power and improved hairstyling. Excellent skin hydration.	★	★			
Polyquat 39	Polyquaternium-39	Liquid	Amphoteric polymer with high charge density, moisture and stable over a wide pH range (1-14). Copolymer suitable for improving the combability and softness of hair in their hot and cold cleansing products.		★			
Elquat 33	Cetrimonium Chloride	Liquid, 25%	Cationic surfactant with antistatic, emulsifying and conditioning properties. It is used in conditioners, hair creams, lotions and shampoos.		★			★
Pantesilk	Propylene Glycol, Cocoyl Hydrolyzed Silk Protein, Panthenol	Liquid	Hair conditioner used in hairsprays, conditioners, lotions and shampoos.		★			

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
FUNCTIONAL PRESERVATIVES								
Benzalconium Chloride C	Benzalconium Chloride	Liquid, 50%	Antimicrobial with antistatic, dispersing and deodorizing properties. Helps fight odors. Useful in skin and hair product formulation.	★	★			
Climbazole	Climbazole	Powder	Product with antimycotic activity used in the formulation of dandruff prevention products.					★
Ciclopirox Olamine	Ciclopirox Olamine	Powder	Product with antimycotic activity used in the formulation of dandruff prevention products.					★
Piroctone Olamine	Piroctone Olamine	Powder	Anti-dandruff, Anti-fungal. Fights Malassezia furfur, major yeast responsible for dandruff production. Helps fight odor.					★
SUN FILTER								
Filter B3	Benzophenone-3	Powder	UVB-UVA filter. Oil-soluble. Improves stability of ingredients or formulations and shelf life.					★
Filter B4	Benzophenone-4	Powder	UVB-UVA filter. Oil-soluble. Improves stability of ingredients or formulations and shelf life.					★

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
WAXES								
White Synthetic Beeswax Drops	Ozokerite, Hydrogenated Vegetable Oil, Stearyl Stearate, Stearic acid	Solid, drops	Synthetic wax. Can be used in lipsticks, creams, sticks and depilatory waxes.	★	★			
Anhydrous Lanolin	Lanolin	Paste	In skin softening products, as a smoothing agent in hand and foot care products, hair cosmetics, and Make-up products.	★	★			
Lanolin Alcohols	Lanolin Alcohol	Solid	Moisturizer for skin, hair and nails. It facilitates the formation and stability of emulsions during production.	★	★			

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
PETROLATES								
Pharma-Oil 5,5 USP	Paraffinum Liquidum	Liquid	High-viscosity emollient oil. Enhances hair flexuosity, elasticity and shine. In skin products it has moisturizing action, reducing flaking and dehydration.	★	★	★	★	
Pharma-Oil 1,9	Paraffinum Liquidum	Liquid	High-viscosity emollient oil. Enhances hair flexuosity, elasticity and shine. In skin products it has moisturizing action, reducing flaking and dehydration.	★	★	★	★	
Paraffin (Drop point: 52-54°C)	Paraffin	Waxy solid	Used for its fluidity and flow characteristics, high lubricity, hydrophobic and skin-protective properties. Used in creams, solid brilliantines, sticks.	★	★	★	★	
Paraffin (Drop point: 56-58°C)	Paraffin	Waxy solid	Used for its fluidity and flow characteristics, high lubricity, hydrophobic and skin-protective properties. Used in creams, solid brilliantines, sticks.	★	★	★	★	
White Vaseline USP	Petrolatum	Paste	When applied after a shower, Vaseline works as an occlusive moisturizer, which prevents the the skin from drying. It helps protect chapped areas, reduces irritation, and soothes the skin after hair removal or shaving.	★		★		
SEQUESTRANTS								
Oxyquinoline Sulfate	Oxyquinoline Sulfate	Powder	Chelating agent, sequestrant for metals. Ideal in systems containing hydrogen peroxide such as hair dyes.		★			
Etidronic Acid	Etidronic Acid	Solution, 60%	Chelating agent, sequestrant for metals. Stabilizes systems containing surfactants.	★	★			
Disodium EDTA	Disodium EDTA	Powder	Chelating agent, sequestrant with protective and stabilizing functionality	★	★	★	★	★
Tetrasodium EDTA	Tetrasodium EDTA	Powder	Chelating agent, sequestrant with protective and stabilizing functionality	★	★	★	★	★
Sodium Stannate	Sodium Stannate	Powder	Chelating agent, Sequestrant particularly used for stabilization of peroxides	★	★			
Tetrasodium Glutamate Diacetate	Tetrasodium Glutamate Diacetate	Liquid, 47% and powder	Versatile and readily biodegradable plant-derived chelating agent based on L-glutamic acid. It appears as a transparent liquid. It is bio-compatible and bio-degradable. Also available in powder form	★	★	★	★	★

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
RHEOLOGICAL MODIFIERS								
Acrylgel 10	Carbomer	Powder	Rheological thickening, emulsifier and suspending additive, extremely easy to disperse.	★	★	★	★	★
Acrylgel 20	Acrylates/C10-30 Alkyl Acrylate Crosspolymer	Powder	Rheology modifier with viscosifying, gelling, suspending and emulsion stabilizing properties.	★	★	★	★	★
Acrylgel 21	Acrylates/C10-30 Alkyl Acrylate Crosspolymer	Powder	Polyacrylate polymer of election for the production of various types of gels and O/W emulsions. Rheology modifier with viscosifying, gelling, suspending and emulsion stabilizing properties.	★	★	★	★	★
Acrylgel 940	Carbomer	Powder	Viscosizer for gels and stabilizer for emulsions. High-molecular-weight synthetic polymer that allows for transparent gels with different viscosities depending on the pH of the system. For alcohol systems > 75%. Viscosity: 40000 to 65000 cps - 0.5% W	★	★	★	★	★
Acrylgel 940 Advanced	Carbomer	Powder	Viscosizer for gels and emulsion stabilizer. High-molecular-weight synthetic polymer that allows for transparent gels with different viscosities depending on the pH of the system. For alcohol systems > 75%.	★	★	★	★	★
Guar Gum	Cyamopsis Tetragonoloba Gum	Powder	Gelling agent that can rapidly disperse in water both cold and hot. Its moisturizing and emollient properties make it suitable for the formulation of creams and emulsions.	★	★	★	★	
Xanthan Gum	Xanthan Gum	Powder	High-molecular-weight polysaccharide of natural origin that enables perfectly transparent gels. It increases the stability and viscosity of emulsions and has excellent dispersing activity.	★	★	★	★	
Tara Gum	Caesalpinia Spinosa Gum	Powder fine	Known as galactomannao, Tara Gum is a natural Ingredient (Hydrocolloid) obtained by a 100% mechanical process from the endosperm of the Tara seed. It is partially soluble in cold water, while it dissolves easily in hot water, hydrating completely and forming a medium-strength gel of exceptional softness.	★	★	★	★	★
Poliguar	Hydroxypropyl Guar	Powder fine	Excellent viscosifier and stabilizer for cosmetic formulations even in the presence of high percentages of polar solvents.	★	★	★		
PVP	PVP	Powder	Water-soluble film-forming and fixative polymer. It finds application particularly in hair products (gels, foams, lacquers and mousses). Available in powder and 30% aqueous solution.	★	★	★		
PVP K30 Liquid 30%	PVP, Aqua	Liquid	Water-soluble film-forming and fixative polymer. It finds application particularly in hair products (gels, foams, lacquers and mousses). Available in powder and 30% aqueous solution.	★	★	★		
Bentonite	Bentonite	Powder	Clay mineral of volcanic origin endowed with very high absorptive, viscous and suspending capacity. Used mainly in the formulation of face masks.	★				
Caolin	Kaolin	Powder	Also known as White Clay, kaolin is a powerful adsorbent used in foundations and masks primarily for its mattifying properties.	★	★	★		

TRADE NAME	INCI	ASPECT	COSMETIC PROPERTIES	Skincare	Haircare	Makeup	Suncare	Toiletries
VITAMINS								
Biotin	Biotin	Cristals	It has a supporting function for the keratin structure of skin, nails and hair.	★	★			
β- Carotene	Beta Carotene	Thick liquid	Natural colouring agent for cosmetic formulations.	★	★	★		
D-Pantenol	Panthenol	Thick liquid	Provitamin B5. Hair conditioner. Increases hydration of the stratum corneum inducing long-lasting skin hydration. Strengthens the skin barrier by reducing TEWL. Moisturises hair, strengthens damaged hair and nails. Improves hydration and maintains the softness and elasticity of the skin. Available in 98% and 50%.	★	★	★	★	
Niacinamide / Vitamin B3 / Vitamin PP	Niacinamide	Cristals	Protects against damage caused by UV rays and pollution. Reduces the appearance of lines and wrinkles and improves skin elasticity.	★			★	
Vitamin A Acetate	Retinyl Acetate	Oily Liquid/ Powder	Skin normaliser. Improves the elasticity and hydration of the skin. Helps counteract numerous skin problems, including damage caused by ageing, sun exposure and acne.	★		★	★	
Vitamin A Palmitate	Retinyl Palmitate	Liquid	Stabilised with Tocopherol. Skin normalising. Improves skin elasticity and hydration. Has an anti-ageing effect. Helps combat numerous skin problems, including damage caused by ageing, sun exposure and acne.	★		★	★	
Vitamin B6	Pyridoxine Hydrochloride	Powder	It stimulates the healthy appearance of the hair and contributes to the effectiveness of anti-dandruff products. In skin care products, vitamin B6 apparently reduces sebum levels and limits the area of oily spots.	★	★			
Vitamin C USP	Ascorbic Acid	Powder	Antioxidant and skin lightener contributes to the inhibition of tyrosine synthesis. Intervenes in collagen synthesis.	★		★		
Vitamin C Palmitate	Ascorbyl Palmitate	Powder	Antioxidant and photoprotective. Useful for protecting cosmetic formulations from oxidative processes.	★		★		
Sodium Ascorbyl Phosphate	Sodium Ascorbyl phosphate	Powder	Stabilised vitamin C allowing controlled release of the active ingredient for more effective action on the skin.	★		★		
Vitamin E	Tocopherol	Thick liquid	Antioxidant, fights free radicals. Protects the skin against premature ageing. Soothes irritations and chapped skin.	★	★	★	★	
Vitamin E Acetate	Tocopheryl Acetate	Thick liquid	Antioxidant, fights free radicals. Protects the skin against premature ageing. Soothes irritations and chapped skin.	★	★	★	★	

Science, technology, care.
